THE STORY

OBJECTIVE

This Automotive company, located in downtown Detroit, wanted to create a hub for creativity and innovation in their workplace that will accommodate their team in the long run allowing them to work flexibly and productively.

DESIGN SOLUTION

To achieve these goals, they look to Rightsize for help envisioning what that space would look like. Both teams collaborated and worked hand-in-hand to find the best design solution for the company's workplace needs. We came up with a modern, flexible workspace for 50+ team members with height-adjustable desks, collaborative meeting spaces, and plaza-like cafe space to allow team members to gather, unwind and have fun within their office.

DESIRED OUTCOME

Designing a workplace is more than just aesthetics. Rightsize provided a coherent concept and a detailed space plan branded to the company's working routine and selected quality and ergonomically designed furniture proven to maximize productivity and work efficiency.
